

SERVICE EXCELLENCE AWARD

FIELD TRIP PLUS

www.fieldtripplus.com

TOKYO, JAPAN

Whilst it is possible to book a variety of walking tours in Japan, the operators at Field Trip Plus have been highlighted for their excellent service, because they offer clients the opportunity to have a ‘real Japanese experience’ rather than to simply visit. The team of professional governmental licensed tour guides specialise in private excursions that are completely flexible and are tailored towards what guests are interested in experiencing. Specialising in the more traditional aspects of Japanese culture, Field Trip Plus offers visitors the opportunity to enjoy unique experiences such as Japanese dining through exclusive sushi and sake tasting sessions.

Whether it is within walking distance, accessible by car or a bullet train journey away, Field Trip Plus offers a wide variety of traditional and modern tours all over Japan. Visitors can enjoy the opportunity to explore the numerous cultural heritage sites such as the private guided tour of Sensoji Buddhist Temple. With the assistance of ‘your local friends’ at Field Trip Plus, the daunting task of navigating the streets of popular cities such as Tokyo, Osaka, and Kyoto becomes infinitely easier. It is also possible to explore suburban areas and “off the beaten path” or hidden places where locals frequent.
